

Konrad Drozdyk

Passionate Software Developer | Test Automation Expert | Adaptable and Detail-Oriented

As a passionate and detail-oriented software developer with a strong foundation in software testing, I bring a unique perspective to creating high-quality, reliable solutions. My commitment to excellence is fueled by a deep appreciation for quality, adaptability in dynamic environments, and a drive for continuous self-improvement. I thrive on learning new technologies and honing my skills to deliver innovative and efficient results.

Quote from Recommendation Letter

"Konrad has a very strong technical knowledge, which enabled him to help clients with test automation in their test operations. His work has been characterized by a strong sense of responsibility, great skill, and exemplary independence, earning him high appreciation from both colleagues and clients." – **Sogeti Sverige AB**

Education & Training

Full Stack C# Boot Camp

School of Applied Technology (SALT) | Stockholm, Sweden | 2024

Currently enrolled in a demanding full-stack C# developer boot camp to further refine my technical expertise and enhance collaboration with development teams. Designed by industry experts, the program ensures I gain the latest skills to meet client requirements effectively.

Sogeti Career Booster

Stockholm, Sweden | 2019

Completed a two-month training program focusing on soft skills, effective teamwork, and practical insights through workshops and internal projects.

Vocational Education in Software Testing

Campus Telge | Södertälje, Sweden | 2017–2019

Completed a two-year vocational education in software testing, covering essential areas such as test automation, test design, test strategy, and project models, preparing me for practical demands in the software testing industry.

Work Experience

Test Lead

Interflora | 2023

- Led a team of two testers, managing the planning, execution, and reporting of test cases and results.
- Collaborated closely with developers and stakeholders in an agile environment to ensure high-quality deliverables.
- Acted as a liaison between stakeholders and development teams to align priorities and achieve project goals.

Technical Tester

Bokadirekt | 2021

- Sole tester in a small developer team, responsible for all test-related activities within the company.
- Established testing processes and laid the groundwork for a robust test automation framework.

Test Automation Engineer

Sogeti Sverige AB | 2019–2020

- Worked on diverse client projects, focusing on test automation, manual testing, and exploratory testing.
 - Contributed to internal education channels and upskilling fellow consultants through courses and projects.
-

Highlight Project

Swedbank Insurance Test Automation Project

- Designed a comprehensive test automation strategy in collaboration with stakeholders, including end-users and project managers.
 - Developed a front-end test automation solution using Java and Selenium, integrated into a CI/CD pipeline.
 - Expanded the project scope to include web service testing, ensuring high-quality deliverables.
 - Collaborated within an agile team of three, managing the nine-month implementation phase using Jira.
-

Technical Skills
